## GENERAL INFORMATION

**Worm Power™ Turf Organic Liquid Extract (OLE)** is derived from earthworm castings in a controlled environment setting. This material improves soil and soilless mixes biologically, chemically and physically.

## DIRECTIONS FOR USE

**Worm Power Turf OLE** can be applied to all ornamentals, trees, turf, lawns, landscape shrubs, flowers and plants.

### Turf Application:

#### *Greens, Tees, Fairways, Lawns and Sports Turf*

Apply **Worm Power Turf OLE** as a soil spray at 8 ounces per 1000 ft<sup>2</sup> in 2 gallons of water (255 ml per 100 m<sup>2</sup> in 8 L) at 15 day intervals or 16 ounces per 1000 ft<sup>2</sup> in 2 gallons of water (510 ml per 100 m<sup>2</sup> in 8 L) at 30 day intervals. **Worm Power Turf OLE** should be used as a part of a program that includes an early Spring and late Fall application of **Worm Power Turf Organic Select Granular**, incorporated with aerification.

### Horticultural Root Zone Application

**In Soilless Media:** Apply **Worm Power Turf OLE** at 1.75 ounces per gallon (13.5 ml per liter) of growing container size every week throughout the growing season.

**In Mineral Soil Media:** Apply **Worm Power Turf OLE** at 1 ounces per gallon (8 ml per liter) of growing container size every week throughout the growing season. If plantings are in the ground, estimate the volume size of the root ball in gallons (liters) and apply accordingly.

### Horticultural Foliar-Spray Application

Mix a 1:100 solution of **Worm Power Turf OLE** in water. Apply as a spray to cover the entire leaf canopy until running off.

**Worm Power** is a trademark of RT Solutions LLC.
