

**AQM** LIQUID  
Tougher Turf

**Kelp Extract  
with Soil  
Wetting Agents**

### GENERAL INFORMATION

**AQM** is a combination of kelp extracts and soil wetting agents designed to encourage root development, relieve water deficit stress, and improve root zone hydration. **AQM** is easy to use and will not harm turf when used in accordance with product directions. When used as directed, **AQM** can be applied at anytime of the year to increase the vigorous appearance of turfgrass. **AQM** is safe to turf when used as recommended.

### CONDITIONS OF SALE WARRANTY AND LIMITATION OF LIABILITY

AQUA-AID, INC. (Seller) warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

### HAZARD STATEMENT(S)

The product is not classified as hazardous. No known significant effects or critical hazards.

### PRECAUTIONARY STATEMENT(S)

Keep out of reach of children. Read label before use. In case of eye contact, flush eyes with water. If swallowed, give water or milk. If eye or skin irritation occurs or you feel unwell, get medical advice/attention.

### CONTAINS NON-PLANT FOOD INGREDIENTS:

#### Active Ingredient

- 10% Non-ionic polyols
- 1% Kelp (*Microbe Food*)
- 89% Inert ingredients

### DIRECTIONS FOR USE

#### *Greens, Tees, Fairways, Lawns and Sports Turf*

Tank mix **AQM** at 10 L/ha in 400 to 800 L of water (3 ounces per 1000 ft<sup>2</sup> in 1 to 2 gallons). Apply every 30 to 45 days throughout the growing season.

Inject **AQM** at 10 L/ha (1 gallon per acre). Apply every 30 to 45 days throughout the growing season.

#### *Horticulture*

Tank mix **AQM** at 10 L/ha in 400 to 800 L of water (3 ounces per 1000 ft<sup>2</sup> in 1 to 2 gallons). Apply 2 to 3 weeks after germination or transplant and follow-up application at bloom set.

Inject **AQM** at 10 L per hectare (1 gallon per acre). Apply 2 to 3 weeks after germination or transplant and follow-up application at bloom set.

#### *Sod Installation*

Apply **AQM** at 10 L/ha in 400 L of water (3 ounces per 1000 ft<sup>2</sup> in 1 gallon). Apply right after sod has been laid and follow-up with normal turf program.

DO NOT combine **AQM** in the spray tank with pesticides or fertilizers unless prior use has shown the combination physically compatible, effective and non-injurious under local conditions.

### AQUA-AID GUARANTEE

**AQM** comes with a 100% money back guarantee. If you are not satisfied with **AQM** for any reason after trying the product at recommended rates, AQUA-AID, INC. will refund your money in full.
