

# PBS150 Granular

## Multi-Branched Long-Term Soil Surfactant

PBS150 Granular is a long-term surfactant utilizing a unique multi-branched surfactant molecular structure to address the source of performance loss – biodegradation of the surfactant molecule by soil microbes. This increased performance can reduce hydrophobic conditions on a sustainable basis for up to 150 days. PBS150 Granular can also restore the uniform movement of water into and through the soil profile. When used in accordance with product directions, PBS150 Granular is easy to use, is not harmful to plants and can be applied at anytime of the year to avoid the detrimental impact of water repellency stress and localized dry spots. PBS150 Granular is safe to plants when used as recommended.

### CONDITIONS OF SALE

### WARRANTY AND LIMITATION OF LIABILITY

Aqua Aid Europe (Seller) warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

### HAZARD STATEMENT(S)

May cause respiratory irritation.

### PRECAUTIONARY STATEMENT(S)

Keep out of reach of children. Read label before use. Avoid breathing dust. Use only outdoors or in a well-ventilated areas. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or physician if you feel unwell.

**Net Weight: 20 kg**

### CONTAINS NON-PLANT FOOD INGREDIENT:

Active Ingredient	6.25%	Octahydroxy polyoxyalklene polymers
Inert Ingredient	93.75%	Porous ceramic carrier

PBS150 Granular should be applied early in the season before localized dry spot conditions and formations occur. PBS 150 Granular can also be used in horticulture to reduce water consumption and improve plant conditions. Increases nutrient exchange due to better moisture control.

### DIRECTIONS FOR USE

Typical application rate: Apply PBS150 Granular at 160 – 240 KG / Ha at 6 – 10 weeks interval. Wash in at 3 MM irrigation for best result. For more longevity apply two applications of PBS150 at 200 KG / Ha with 30 days interval and water in accordingly. Function and longevity depending on profile conditions and climatically influences. Monitor moisture level to check on product activity before reapplication.

### AQUA-AID GUARANTEE

PBS150 Granular comes with a 100% money back guarantee. If you are not satisfied with PBS150 Granular for any reason after trying the product at recommended rates, Aqua Aid Europe will refund your money in full.
